

DoorVaani.com SIP Account Configuration

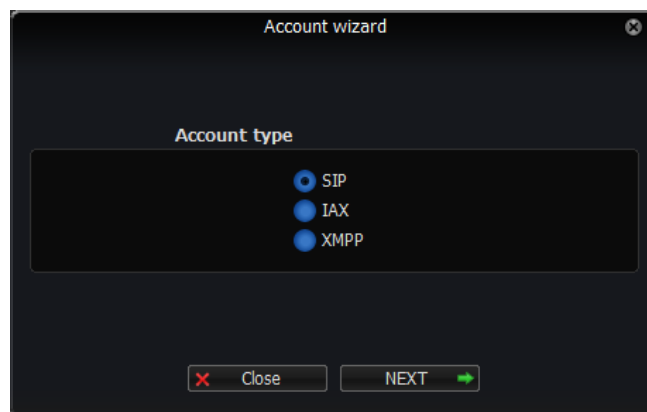

Zoiper on Windows 7 or previous Windows

1. Please download Zoiper soft-phone from Zoiper.com and install it on your Windows 7 (or previous) PC. On initial installation of ZoiPer you will see the following screen when there are no SIP accounts configured.

Please click on “Settings” > Create a new account

2. In the Account Wizard, please select Account type as “SIP” and click on Next.

3. In the “Credentials” page of Account Wizard – please enter your VOIP Line username as created by you in your DoorVaani.com account, your VOIP Line password and also the Domain as shown to you in your DoorVaani.com account on “My VOIP Lines” page (Example: as1.doorvaani.com). Please note that both VOIP Line username and password are case sensitive and ensure that the domain name is entered correctly with no spelling mistakes. When done please click on Next button to go to the next screen.
